

KAIQUE LIMA

Senior Frontend Engineer

kaikegl@proton.me • linkedin: [in/kaique-gl](#) • github: [kaiquegl](#)
Londrina, Brasil • [ike-dev.com.br](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 9+ years of experience specializing in scalable, high-performance e-commerce architectures using React, Next.js, and TypeScript. Proven track record in technical leadership of frontend teams, having delivered projects for brands such as Wake Commerce, Sinerlog, Riachuelo, Centauro, and FarmaciasApp (Grupo SC).

Key achievement: led the greenfield development of one of Brazil's largest pharmaceutical marketplaces, integrating 15,000+ stores and driving a 300% increase in monthly sales within the first year through aggressive performance optimization (Core Web Vitals) and advanced SEO strategies.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Vite.js, TailwindCSS, Shadcn UI, SEO, Angular, jQuery, HTML/CSS

Backend: Node.js, Fastify, Drizzle ORM, PostgreSQL, PHP, MySQL

DevOps: Docker, CI/CD, AWS

Design: Figma, AdobeXD, Photoshop

PROFESSIONAL EXPERIENCE

Tech Lead Frontend | [Wake Commerce \(via Leanwork\)](#) | Sep 2025 – Present

Londrina, Brazil – Hybrid

- Led the implementation of critical third-party integrations (Serasa, Hero Seguros, Tuna Pagamentos) on the Wake Commerce platform, designing the frontend architecture to ensure security and scalability during the Go-Live preparation phase of this enterprise headless e-commerce platform.
- Architected the frontend integration layer with a focus on decoupling and reusability using JavaScript, TailwindCSS, and best architectural practices, reducing the onboarding time for new platform partners.

Tech Lead Frontend | [Sinerlog \(via Leanwork\)](#) | Jan 2025 – Aug 2025

Londrina, Brazil – Hybrid

- Managed a team of frontend developers delivering 4 admin panels and 1 multi-tenant e-commerce platform simultaneously using React, Next.js, Vite.js, TypeScript, TailwindCSS, and Shadcn UI, ensuring consistency across all cross-border commerce products.
- Created a proprietary UI Registry inspired by shadcn/ui architecture, standardizing reusable components company-wide and significantly accelerating the development of new screens and features.
- Restructured CI/CD pipelines to support multiple environments (staging/production) with Docker, resulting in faster, more secure, and predictable deployments across the organization.

Senior Frontend Engineer | [FarmaciasApp – Grupo SC \(via Leanwork\)](#) | Jan 2023 – Dec 2024

Londrina, Brazil – Hybrid

- Built from scratch (greenfield) the frontend of one of Brazil's largest pharmaceutical marketplaces using React, Next.js, TypeScript, TailwindCSS, and Shadcn UI, integrating a catalog of 15,000+ stores into a high-performance interface.
- Performed aggressive Core Web Vitals and SEO optimization, directly contributing to a 300% increase in monthly sales within the first year of marketplace operation.

- Implemented advanced rendering strategies (SSR/ISR) with Next.js, enabling efficient indexing of thousands of product pages and significantly improving organic search ranking.

Mid-Level Frontend Engineer | [Riachuelo – Fanlab & Carter's \(via Leanwork\)](#) | Jan 2021 – Dec 2022

Londrina, Brazil – Hybrid

- Operated across the digital storefronts of Fanlab and Carter's brands within the Riachuelo ecosystem, focusing on load performance and modular componentization using React, Next.js, and TypeScript.
- Collaborated in SCRUM teams to integrate new features and optimize the shopping experience on large-scale e-commerce platforms, resulting in improved customer satisfaction and increased online sales.

Mid-Level Frontend Engineer | [Centauro \(via Leanwork\)](#) | Jan 2019 – Dec 2020

Londrina, Brazil – Hybrid

- Developed interactive touch-screen applications in React for product customization (print on demand) in Centauro's physical stores, implementing an omnichannel solution that boosted in-store engagement and custom product sales.
- Maintained and supported the high-traffic Centauro e-commerce platform, ensuring stability and performance during peak access periods on major commercial dates.

Junior Frontend Engineer | [Leanwork](#) | Jul 2018 – Dec 2018

Londrina, Brazil

- Performed pixel-perfect styling and legacy e-commerce maintenance using HTML/CSS, JavaScript, jQuery, and Photoshop, ensuring visual fidelity and cross-browser consistency.
- Developed an educational platform in Angular for course, exam, and student management, digitizing academic processes and improving administrative efficiency.

Junior Fullstack Developer & Support | [Elitesoft Informática](#) | Jan 2017 – Jun 2018

Londrina, Brazil – On-site

- Developed and maintained systems in PHP, Angular, and MySQL, while automating repetitive processes that significantly reduced the technical support operational workload, saving clients several hours per week.
- Led the migration of the legacy platform (Qooxdoo) to Angular, improving performance, development workflows, and reducing maintenance time by over 40%, ensuring long-term platform scalability.

EDUCATION

Postgraduate – Full-Stack 360° with Artificial Intelligence

Rocketseat | Jan 2025 – Present

Bachelor of Computer Engineering

UNOPAR – Universidade Norte do Paraná, Londrina | Jan 2013 – Dec 2017

LANGUAGES

Portuguese – Native Speaker

English – Advanced
